A total of ten rustic villas are available in this development. Prices range between Lm265,000/€617,284 and Lm295,000/€687,165. All villas have a good sized back garden with decking surrounding the pool. Open country views can be enjoyed from most rooms. One lock up garage for each unit is provided in the underlying garage complex.

Two medium sized apartments are also available. These do not have views but the upper unit has its own airspace which provides plenty of external space.

All units in this development will be finished to very high standards.
